

Our Vision Statement:

We are dedicated to the awareness and preservation of global humanity's connection to its Feminine, Earth Mother, Mother Goddess and matrilineal roots. We create together at sacred sites to reanimate these connections and to help re-dream a new world, founded on gylany, the collaboration of Masculine and Feminine as equals, and without hierarchy. We utilize a group context of Shamanic Astrology and Sacred Earth/Sky ceremony. We specialize in experiencing ancient megalithic sites and sacred landscape around the world, connecting with local experts in each area. We have a particular love of the time-frame of the Neolithic golden age, 2000-4500 BC. We feel it to be possible, and even necessary, to reconnect to our ancient DNA and karmic memories of the far longer time in human history, encompassing 200,000 years, when global humanity lived in much greater harmony and peaceful cooperation. Perhaps we can find out who we are and discover what actually happened!
